## SUMMARY

Full-stack software engineer with a B.Sc. in Computer Science & Engineering (CGPA 3.62/4.00) and industry experience across two companies. Delivers responsive, production-grade frontends with Next.js and React, leveraging Shadcn UI and Tailwind CSS to build polished user interfaces. Designs and implements backend services with NestJS, TypeORM, PostgreSQL, and MySQL, and integrates AI capabilities using LangChain. Seeking a role where frontend expertise and full-stack delivery can drive meaningful product impact.

## EXPERIENCE

### Junior Software Engineer — *Mar 2025 – Apr 2026*

*Growthly IT LLC - Chattogram, Bangladesh*

- Built and shipped AviHire end-to-end: designed NestJS/Supabase REST APIs, candidate profile pages, and employer dashboards to streamline aviation-industry recruitment.
- Delivered A-Z Yachting, a public-facing recruitment interface for yacht crew hiring, building responsive UI components with Next.js and Shadcn UI.
- Contributed frontend features to Oxbridge Launchpad, a full-stack LMS supporting students targeting Oxford and Cambridge admissions.
- Worked in agile cross-functional teams; maintained code quality through peer reviews and iterative delivery.

### Junior Software Engineer — *Jul 2024 – Jan 2025*

*Code Owls - Chattogram, Bangladesh*

- Engineered backend APIs and database schemas for Joomana Jobs using NestJS, TypeORM, and MySQL; built user profile management, resume upload handling, and document generation endpoints.
- Developed backend services for Statement Genie, handling PDF/CSV file ingestion, data extraction, and structured result delivery via REST APIs.
- Delivered features full-stack - from database design and REST API implementation to frontend integration with Mantine UI.

### Web Developer (Freelance) — *Oct 2023 – Jan 2024*

*A3 Styles - Chattogram, Bangladesh*

- Sole developer: designed and delivered a complete Django full-stack e-commerce site covering product catalogue, cart, and secure checkout.
- Managed client requirements, system architecture, and deployment independently - delivering the project on schedule.

## PROJECTS

### AviHire · *Growthly IT LLC* — *2025*

*Next.js · NestJS · TypeORM · Supabase (PostgreSQL) · Shadcn UI*

- Owned candidate profile, employer dashboard, and RESTful API integrations; reduced manual recruitment steps through automated workflows.
- Implemented secure file uploads and JWT authentication covering both candidate and employer access flows.

### A-Z Yachting · *Growthly IT LLC* — *2025*

*Next.js · Shadcn UI*

- Built the public-facing recruitment interface for yacht crew hiring; delivered a fully responsive multi-page UI integrated with backend APIs.

- Implemented dynamic filtering and listing components enabling employers to browse and manage applicant profiles efficiently.

**Oxbridge Launchpad** · *Growthly IT LLC* *2025*

*PHP · Tailwind CSS*

- Contributed frontend features to an LMS designed to support students targeting Oxford and Cambridge admissions.
- Implemented reusable UI components and ensured consistent cross-browser rendering across the platform.

**Joomana Jobs** · *Code Owls* *2024*

*Next.js · NestJS · TypeORM · MySQL · LangChain · Mantine UI*

- Built resume-parsing and AI document-generation services; integrated LangChain to personalise output from unstructured resume data.
- Designed normalised MySQL schema and TypeORM entities supporting multi-role user management.

**Statement Genie** · *Code Owls* *2024*

*Next.js · NestJS · TypeORM · MySQL · Mantine UI*

- Built REST endpoints for document ingestion, data extraction pipeline, and structured CSV result delivery.
- Contributed frontend features and API integration to surface financial summaries in a clean, interactive UI.

**Expense Share** *2025*

*Next.js · Firebase · Shadcn UI*

- Designed and shipped a real-time bill-splitting app solo - live in production; handles multi-user group expense tracking via Firestore.
- Built Firebase authentication and Firestore real-time listeners for instant balance updates across shared user sessions.

**A3 Styles (E-Commerce)** *2023*

*Python · Django · HTML · CSS*

- Sole developer - architected and delivered a full e-commerce platform; implemented Django ORM models, views, templates, and deployed to production.
- Built product catalogue, shopping cart, and order management features with Django; handled client requirements end-to-end from design to launch.
